Our achievers with their mentors

Visionaries

A Few Words About Our Chairman

'Vidyarathna' Dr. M. Santhi Ramudu, a man with humility-personified cheerful approach, unrelenting hard work and dedication, is the visionary behind RGM CET! He established the institute with a vision to provide quality technical education to the youth. Under his visionary leadership, RGM CET has now transformed into a swanky 32- acre-campus institute.

He is an auditor by profession and an educationalist by passion! Various educational institutes (KG to PG & Ph. D) in fields of engineering, management, medicine, pharmacy and nursing are being established and guided under his visionary direction. He is the former President of the A.P. Private Engineering Colleges Management Association and Joint-secretary of A.P. Private Medical Colleges Association.

Dr. M. Santhi Ramudu
Chairman

A message from the visionary!

I firmly believe that education sculpts a human being into a good individual by instilling a sense of responsibility towards the society and technical education plays a significant role in shaping a country's future with skilled manpower, enhanced productivity and improved quality of life. I encourage students to take up technical education and strive to build their technical knowledge and skills. I would like to thank all the parents who have entrusted us with the care and education of their children. It is their faith in RGM CET that has helped us come this far.

Managing Director

Mr. M. Siva Ram
Managing Director

Mr. M. Siva Ram, the Managing Director of RGM CET, is a man of integrity and dedication who works incessantly for the progress of prestigious RGM CET and made it one of the best engineering colleges in this region. He took on the administration of RGM CET at the tender age of 21 and has been tirelessly contributing for more than 20 years. His human resource management skill is impeccable and helps immensely in seamless management of the organization.

Our Able Leadership

Principal

Dr. T. Jayachandra Prasad, Prof. in Electronics and Communication Engineering having more than 3 decades of teaching experience, graduated from JNTUH in the faculty of ECE in 1984. Later, he obtained his master's degree in Applied Electronics from Bharathiar University, Coimbatore in the year 1988 and was awarded doctorate for his work in Complex Signal Processing by JNTU, Hyderabad in 2003. He is very actively involved in research work and guided 12 scholars for their Ph. D. in the field of electronics.

Dr. T. Jayachandra Prasad
Principal

Director

Dr. D. V. Ashok Kumar, Director - Administration, completed his master's in 2000 from JNTUCE, Anantapuramu, and Ph. D. in 2008 from the same university. Dr. Ashok has 26 years of extensive teaching experience at RGM CET and has worked in various cadres like professor, HOD and principal. He has successfully published 85 research papers in national and international journals and conferences and has attended 15 national and international workshops. He is actively involved in research work and has guided 6 scholars for their Ph. D. and another 7 are being guided. His areas of interest are Electrical Machines, Power Systems and Solar Energy. He is a senior member of IEEE, Fellow of IE(I), Life Member of I.S.T.E, K. D.T. F & S.E.S.I.

Dr. D. V. Ashok Kumar
Director - Administration

Education is the most powerful weapon
which you can use to change the world.

- Nelson Mandela

Career Development Centre

RGM CET believes that all its students with technical knowledge and skill should get opportunities to showcase their talent and shouldn't restrict themselves from achieving success due to the lack of communication skills or industry skills. To bridge the gap between the industry demands and the students' skill set, RGM CET has formed the Training and Placement Department that provides excellent training programs involving –

Preparation for competitive exams (GATE, GRE, GMAT, TOEFL, and CAT)	Personality development	Coding skills Certification programs on AWS Cloud, Microsoft Azure Communication skills
Group discussion practice	Mock interview sessions	Motivation to update technical knowledge and soft skills

Placements

Eligible RGM CET students need not worry about their future, they are provided ample opportunities to get a foothold with ease in the tough competitive world with –

Campus interviews for pre-final and final year students.	Industrial training & industrial visits for all students.
--	---

About Placement Director:

The students of RGM CET are being ably guided by Dr. D. V. Ashok Kumar in choosing the right career. He has maintained professional connections with the HR heads of top MNCs; leveraging these connections he has successfully invited several industry leaders for campus placement at RGM CET. Under his guidance, 1448 students have been successfully placed in 52 companies that visited RGM CET in the academic year 2021-22.

Dr. D. V. Ashok Kumar - M. Tech, Ph.D.

Director - CDC

About Placement Head:

Dr. M. Sudheer Kumar plays a crucial role in identifying job opportunities for undergraduates and postgraduates passing out from the college by keeping in touch with reputed firms and industrial establishments; he takes care of career counselling and training of the students. He maintains close liaison with the industry to facilitate placement of the students. He corresponds with prospective employers for interview dates and schedules.

Dr. M. Sudheer Kumar
Head - CDC

Events

Department of _____

Computer Science and Engineering

The Computer Science and Engineering Department is accredited by NBA and is aimed at providing the best IT infrastructure, world-class learning and research environment by adopting the best practices through industry collaborations. We are well-equipped with state-of-the-art computing facilities with 650 systems and supported by adequate power supply backup.

We are committed to encouraging students/researchers in innovative research in the field of Computer Science and Engineering, keeping excellence in focus and delivering quality services to match the needs of the technical education system, industry and society. Our alumni occupy prominent positions in the industry, academia and research all over the world. Further, we have signed MoUs with multinational companies like Amazon, CISCO, Paloalto, BluePrism and Redhat.

Accomplishments:

- Patent on “A Method and System for Debugging or Run Time Profiling of Heterogeneous Computational Grids and/or Geographically Distributed Systems”.
- Patent on “Performance Groups-Based Fast Simulated Annealing That Improves Speed and Quality of VLSI Placement”.
- Patent on “IoT Based Smart Control and Monitor Various Aspects of Automobile Systems”.
- Patent on “IoT Based Technique for Safeguarding Fuel in Vehicles”.

Faculty (42): Professors – 3, Associate Professors – 5, Assistant Professors - 34

Department of CSE

Established in the year 1995, the CSE Department offers B.Tech and M.Tech apart from MCA. It has been recognized as a research centre to offer a full-time doctoral program in Computer Science and Engineering, under JNTUA, Ananthapuramu. The department is vigorously undertaking research and development activities in collaboration with national and international institutions, R & D organizations and industries for the betterment of students.

“Education is one thing no one
can take away from you.”

- Elin Nordegren

RGM CET Campus

Computer Science and Engineering & Business Systems

Dr. K. Rajendra Prasad
M. Tech., Ph.D.
HOD - CSE & BS

The Department of Computer Science and Engineering & Business Systems forms out of Computer Science and Business Systems which are continuously evolving as the most promising and in-demand career paths for skilled professionals. A four-year B.Tech. program offered by JNTUA, Anantapuramu in Computer Science and Engineering and Business Systems (CSE&BS) was established in RGM CET from the academic year 2020-21 to address the growing need for engineering talent with digital technology skills. This course curriculum will benefit the students in enhancing their employability skills by making them capable of using the latest computer technology in developing a business management system. The students are exposed to recent trends such as Computations and Problem Solving, Advanced Web and Big Data Technologies, Cloud Services and Machine Learning for Business Applications, Financial and Management Sciences, Operations and Marketing Research. This course will provide industry-ready and employable engineers and placement in product-based and service-based software companies.

Faculty (9): Professors – 2, Assistant Professors – 7

Patents

- Dr. K. Rajendra Prasad et al., have published a patent titled “IOT BASED PATIENT MONITORING SYSTEM USING BEAGLEBONE BLACK WIRELESS (OSD3358)” in Intellectual Property India on 20/09/2019.
- Dr. K. Rajendra Prasad et al., got granted a patent titled “AN EFFICIENT METHODOLOGY TO MANAGE THE ADMISSIONS IN HOSPITALS DURING THE PANDEMICS SUCH AS COVID-19” on 17/10/2020.

Department of _____

CSE (Data Science)

B. Bhaskar Rao
M. Tech., (Ph.D.)
HOD- CSE DS

At RGM CET, a four-year under-graduate B.Tech program in Computer Science and Engineering (Data Science) has been designed to provide a platform to undergraduate students for a prospective career in upcoming data science industry. The course incorporates Data Science as an interdisciplinary, problem-solving approach that learns to apply scientific techniques to practical problems. It is an intensive skill-oriented program with enough practical training for building business models for analytics. With analysis and statistical approach, data science is one of the fastest growing career opportunities in the country. It is aimed to give exposure to the variety of applications that can be built using techniques covered under this program. A large amount of data is now captured daily from web logs, sensors, mobile devices, and instruments. The data requires organization, rationality and making sense of this information requires distinctive new skills. The aim of this course is to produce graduates who are well versed with theoretical knowledge and the skill set to address all aspects of creating, managing, processing and converting data to knowledge. Students graduating from the proposed program will have significantly more depth and breadth in the broad area of data science. The curriculum is designed in close collaboration with industry, experienced professionals which includes in-demand tools and technologies.

Faculty (8): Professor – 1, Associate Professor – 1, Assistant Professors - 6

The Department of Data Science has a team of highly qualified and experienced members of skilled educators, who not only impart wisdom and knowledge but also propel the students as data thinkers. They instill confidence in them to gain excellence and success in the field of Data Science and furnish in global standards as data scientists.

Electronics and Communication Engineering

The Department of Electronics and Communication Engineering, from its very inception, has established itself as an efficient, self-reliant and quality conscious entity and aims at producing the most energetic, enthusiastic and professionally competent electronic engineers capable to take up the challenges posed to them in the industry.

We have well-equipped laboratories and highly experienced faculty to impart quality education and we also organize guest lectures by eminent speakers from the industry and prestigious institutes to equip the students with the latest technologies and make them globally competitive with solid technical knowledge and research capabilities. We have a student technical association, which organizes events such as paper presentations, hardware exhibitions, technical quizzes, etc. to improve the technical and soft skills of the students.

We encourage our students to compete internationally and to produce creative solutions to the local and global needs in the field of electronics and communication in adherence to professional ethical codes.

Accomplishments:

- Undertook telecom sector skill development project sponsored by PMKVY-TI AICTE, New Delhi.
- Took up the design of CNT based TSVs for realistic 3D integrated circuits sponsored by SERB, New Delhi.
- Participated in Entrepreneurship Awareness Camp in association with Entrepreneurship Development Institute of India (EDII), under DST-MIMAT, sponsored by the Department of Science and Technology, Govt. of India.

Faculty (52): Professors – 6, Associate Professors – 6, Assistant Professors – 40

Department of ECE

Established in the year 1995, the ECE Department offers programs at the graduate, postgraduate and doctoral levels with Nano Electronics and VLSI technologies, Communication Systems and Signal and Image Processing as the main areas of research. Equipped with exceptional infrastructural and instructional facilities, the department has been recognized as a potential research centre by JNTUA, Anantapuramu, in 2013 and has produced its first doctoral degree in 2019. Illustrious faculty, well-equipped laboratories, and state-of-the-art research centres have played a crucial role in the department, because of which it has been accredited by the NBA 5 times.

- George Washington Carver

Department of _____

Electrical and Electronics Engineering

The Department of EEE prepares students in the field of Electrical and Electronics Engineering using new-age information and computer-intensive technologies as electrical and electronics engineering is a continuously evolving subject. EEE is a subject that naturally partners with other disciplines to open whole new engineering avenues. As technology has advanced, so have the challenges facing modern engineers. We are dedicated to delivering competent electrical engineers equipped with core technical knowledge as well as professional skills necessary to face the challenges of the real world.

We have highly experienced faculty with expertise in Electrical Machines, Electrical Power Systems, Power Electronics and Drives, Control Systems, High Voltage Engineering, etc. We impart the theoretical knowledge and further supplement it with experiments and research work in our state-of-the-art laboratories for Electrical Machines, Power Electronics, Power Systems with software, Control Systems, Integrated Circuits, Electric Circuits, Measurements and Instrumentation, Engineering Practices and Electronics Design with excellent computing facilities.

We are well-equipped with an exclusive departmental library, the latest audio-visual teaching aids and the internet facility as well to implement advanced teaching methods. We regularly organize programs such as conferences, seminars, workshops, guest lectures, faculty development programs, etc. sponsored by UGC, AICTE and other funding organizations.

Accomplishments:

- 5-times NBA accreditation for the UG program.
- Published journals in national and international level publications in SCI and Web of Sciences Index.

Faculty (29): Professors – 5, Associate Professors – 10, Assistant Professors – 14

Department of EEE

Started in 1995, the Department of EEE offers B.Tech, M.Tech (Power Electronics) and a full-time doctoral program. It has been recognized as a research centre by JNTUA, Anantapuramu; received ISO certification twice, and NBA-AICTE accreditation five times. Well-qualified faculty, conducive environment for research, modern laboratories, expert lectures by eminent personalities, and well-designed assessment methods are some of the prominent features of the department that have helped it achieve the autonomous status from 2010. Both the students and faculty show exceptional interest and involvement in research activities and paper presentations at the international level.

“Education’s purpose is to replace
an empty mind with an open one.”

- Malcolm Forbes

Department of

Civil Engineering

At the Department of Civil Engineering, we offer courses in structural, environmental, geotechnical, transportation, water resources, construction technology and geo-informatics divisions. We impart quality education to meet the ever-changing technological advancements and industrial requirements through our carefully devised courses, highly qualified faculty, digital classrooms and state-of-the-art laboratories.

We facilitate several academic activities such as seminars, conferences, workshops, expert lectures, invited talks, etc. on our campus to enrich our students' knowledge. Leveraging our well-equipped laboratories, we offer various designs, testing and consultancy services in all the respective divisions wherein Power Grid Corporation of India and various departments of the Government of AP are our major clients. Further, we have been granted funds from various organizations including:

- Funding Agency 'DST' Scheme Research Facilities “FIST Program 2017” (Rs. 60 lakhs).
- Received grant for Study Tour of Atal Tunnel under the AICTE Youth Undertaking Visit for Acquiring Knowledge (Yuvak) Scheme (Rs. 2 lakhs).
- Research Award Grant from UGC (Rs. 28 lakhs).

Accomplishments:

- NBA (Tier-I) accreditation since 2015.
- Recognition as a research centre by JNTUA Ananthapuramu.
- MOUs with NHAI, IE&T Kolkata, ARKES Bengaluru and Rupakalpana Engineering.
- Students selected for L&T Build India Scholarship.
- Students qualified for the GATE examination.
- Consultancy services like Mix Design, Quality Control, SBC of Soil, Water and Wastewater Quality Analysis, etc.

Faculty (34): Professors – 2, Associate Professors – 5, Assistant Professors – 27

Department of CIVIL

Started in the year 2008, the Civil Department offers programs at the UG and PG levels in the divisions of Structural, Environmental, Geotechnical, Transportation, Water Resources Engineering, Construction Technology and Geo-Informatics. Brilliant teaching capabilities of the faculty along with the digital classrooms; well-equipped laboratories; and opportunities to participate in various seminars, conferences, workshops, etc. have helped the department to produce competent civil engineers who can build the nation successfully with their knowledge and skill. The Civil department encourages its faculty and students in research activities and also provides consultancy services in designing and testing in various divisions.

Department of

Mechanical Engineering

At the Department of Mechanical Engineering, the main focus of our curriculum is to promote technical competence, problem-solving skills and innovation of new technologies to meet the ever-growing industry requirements. We accomplish our aim with the help of highly qualified and experienced faculty (17 Ph.Ds. in diversified field specializations from IISc, IITs, NITs and reputed central, state and deemed universities and 22 faculty pursuing Ph.D.

With our state-of-the-art labs, research and computational facilities with a wide range of software to support academic programs, industry-institute interaction centres like APSSDC SIEMENS-TSDI, CM's Skill Excellence Centre, Dassault 3D Experience Centre and Solar Innovation Centre, we ensure our students meet the standards of the industry with adequate technical competence. We further have the 'Innovation and Incubation Center' that provides training to incubate and provide guidance to develop new cutting-edge solutions.

We encourage students' research projects in Solar Thermal, 3D Printing/ Scanning, Joining Technologies, Composite Materials, Material Characterization, CNC Mill/Turn and Internal Combustion Engines etc. Our students get exposure to emerging technological developments as well through internships, industrial visits, expert lectures, collaborative projects and also through active participation in conferences, workshops and competitive events.

Accomplishments:

- Executed research projects worth Rs.2.04 crores.
- Offered consultancy services in Energy Auditing, Joining Technologies, Solar Energy, Rapid Prototyping, Composite Materials, CNC Mill/Turn and Internal Combustion Engine areas.
- Published a total of 668 research papers in reputed international and national journals.

Faculty (34): Professors – 2, Associate Professors – 5, Assistant Professors – 27

Department of ME

Established in 1995 and offering UG and PG programs, the Department of Mechanical Engineering has been accredited by NBA (Tier-I) and recognized as a research centre by JNTUA-Anantapuramu to carry out the Ph.D. program on a regular basis and has completed research projects worth of Rs. 2.04 crores. Modernized laboratories, research-conducive environment, an incubation centre to encourage entrepreneurship among students, and publication of papers in journals of international repute are some of the things that create a unique personality for the department.

“Education’s purpose is to replace an empty mind with an open one.”

- Malcolm Forbes

Department of _____

Master of Computer Applications

Dr. K. Subba Reddy
M.Tech, Ph.D.
HOD - MCA

Offering a two-year postgraduate program in Master of Computer Applications, the Department of MCA with its committed faculty has been active in teaching and promoting research work. We create a conducive environment for enthusiastic learning and guide all students with practical knowledge and skills as we know that outcome-based education is an imperative requirement for students' long-term career growth in the current scenario of hard-hitting competition.

We emphasize imparting industry-relevant skills that help the students in building a rewarding career. For this, we encourage students to work as a team and strive for excellence thereby preparing them for the future where they are expected to contribute to the enhancement of society. The course not only grooms the students to become world-class postgraduates but also nurtures their sense of purpose and vision.

Our department is well-equipped with highly qualified faculty focused on grooming the students for a bright future and a state-of-the-art computer lab that facilitates exceptional practical training. We regularly organize cultural events along with academic workshops and seminars for the all-around development of students and to enhance their soft skills that are the need of the hour in the highly competitive corporate world.

“Education is what remains after one has forgotten what one has learned in school.”

- Albert Einstein

Basic Sciences & Humanity

Department of Mathematics

The Department of Mathematics aims at improving the students' subject knowledge of Mathematics which is widely used in all the major engineering fields where many practical problems, physical laws and relations are translated into mathematical models. We are dedicated to imparting high-quality education in mathematics to undergraduate engineering students to help them solve challenging problems by using mathematical theories and models. Our faculty members are actively involved in research along with the teaching responsibilities.

We have a state-of-the-art computational lab and a mathematical modelling lab equipped with the MATHEMATICA 11.3 package catering to the needs of B.Tech., M.Tech. and Ph.D. students. We are focusing on research in the areas of Fuzzy set theory, Computational fluid dynamics, Graph theory, Queueing models and Algebra.

Accomplishments:

- We have been recognized as a research centre by JNTUA, Anantapuramu since 2016.
- We have produced 4 Ph.Ds. and another 6 students are working for their doctoral degrees.
- A significant number of research papers have been published by faculty members, research scholars and students in reputed national and international journals.

Faculty (19): Professors – 3, Assistant Professors – 16

Dr. K. V. Suryanarayana Rao,
M.Sc., M.Phil., Ph.D.
HOD - Mathematics

Department of Physics

The Department of Physics aims at producing a sound knowledge of theoretical and experimental aspects of physics to produce trained undergraduate students for the recent technological advancements, who can undertake and solve theoretical problems in the scientific fields. We are committed to imparting high-quality research standards in physics and electronics and also training the students to become competent and motivated physicists.

Many of our faculty are postdoc research-experienced from South Korea, Canada, Portugal, China, Hong Kong etc. and hence, they gained to perceive WIPO patents and many Web of Science articles. We are promoting research activities in the areas of VLSI, Solid State Physics, Graphene, Glasses, Biomaterials, LEDs, Nanomaterials, Supercapacitors, Batteries, Solar Cells, etc. To provide the best education, we are in collaboration with the Indonesian Institute of Physics, Indonesia and have a well-equipped Physics Lab along with laboratories such as Glass-Ceramics Lab, Nanophotonics Lab and Lasers & Photonics Lab for Ph.D. and other research works funded by SERB-DST and UGC Minor grants.

Accomplishments:

- We are carrying out an industry-academy sponsored project at Hongkong Polytechnique University, Hongkong.
- Our faculty, Dr. B.C. Jamalaiah was ranked in the world's top 2% scientists-2020 (Applied Physics) by Stanford University, USA.
- Dr. N. Ravi received the Associate Fellow award from Andhra Pradesh Akademi of Sciences, Acharya Nagarjuna University, Guntur.

Faculty (16): Professors – 02, Associate Professor – 01,
Assistant Professors – 13

Dr. N. Ravi
M. Sc., Ph.D.
HOD - Physics

At the Department of Chemistry, we offer an innovative engineering chemistry program that equips the next generation of chemists, scientists, engineers, thinkers and educators with the tools they will need to tackle the 21st-century challenges. With a centre for academic excellence, we are well-equipped with laboratories and tools in the fields of organic chemistry, inorganic chemistry and nano-technology and offer a conducive environment for Ph.D. research scholars. Further, the department has 6 doctorates with vast experience in their respective research areas to support students in research work.

We have published 150 papers in reputed international and national journals wherein 85 are in SCI/Web of Science, with a good impact factor; 20 are in Scopus and the remaining 45 in other journals. We have organized one international conference and three national seminars on various research topics. We have completed one UGC minor research project UGC-MRP-4581/14(SCRO/UGC) worth Rs. 1.3 lakhs funded by the UGC.

Faculty (11): Assistant Professors – 11

Dr. Avula Balakrishna

M.Sc., M.Phil., Ph.D.

Post-Doc.

HOD - Chemistry

Department of English

At the Department of English, we understand that mere subject knowledge isn't sufficient and appropriate language skills are a must for a student's long-term career growth; hence, we offer a coherent curricular framework with relevant and well-structured course choices. We focus on teaching a variety of literary, analytical, pedagogical, and theoretical skills that strengthen students' understanding of language, the value of critical reading and effective writing along with the literature opulence.

We empower students "to seek, to know, to serve" by training the students to better understand the world through insightful reading, and to better express themselves through sharp writing. Further, we encourage students to think deeply and reflect on what they have learnt thereby promoting a love for learning.

Our teaching methodology and the study of language and literature transform our students' understanding of local, national and international communities helping them participate in society as informed and responsible citizens.

Our students can leverage smart classrooms, innovative and progressive learning methods and a student-centric participatory learning approach wherein our assignments and other learning activities are set in line with this approach. Students can benefit and experience holistic development through peer learning, remedial classes, mentoring and value education and appropriate grievance redressal.

Faculty (13): Professor -1, Assistant Professors – 12

Mr. P. Kousar Basha
M.A., M. Phil. (Ph.D.)
HOD - English

Department of Management Studies

The MBA program offered by the Department of Business and Management Studies is well defined to meet the needs of the corporate world. We offer specialization in the areas of human resources, marketing and finance. Classrooms are equipped with LED projectors where we impart value-based education.

We have qualified and dedicated faculty with 3 Ph.D. holders. Our approach to pedagogy combines fieldwork, case studies and instrumented feedback with a strong emphasis on concepts and theory. We organize expert talks, guest lectures and versatile programs to unleash the hidden talent of the students. We have been regularly organizing seminars, workshops and other events relevant to the management field emphasizing industry-institute interaction along with encouraging students for live projects in industries to get real-life exposure.

We encourage both the faculty and students to pursue research-oriented activities and explore all possibilities of enhancement of their talent. We established the HMA Student Chapter successfully and it also runs the Management Studies Club where community service and other student development programs have been organized. We are also associated with The Indian Society for Training and Development.

Accomplishments:

- Our faculty has published around 102 research papers in Scopus and different international peer-reviewed journals.
- We have been recognized as a research centre since November 2015.
- The students of the 15th batch were bestowed with the Pratibha awards for their achievement in academics in different categories.

Faculty (13): Professor – 1, Associate Professors – 2,
Assistant Professors - 10

Mrs. S. Sowjanya
MBA (Ph.D.)
HOD - MBA

Programs

RGM CET is a pioneer in providing world-class education and training to its students with top-notch infrastructural facilities and encouraging ambience that nurture knowledge and enhance practical skills.

Undergraduate Courses (Engineering)		
Courses	Duration	Intake
Electronics and Communication Engineering	4 Years	240 Seats
Computer Science and Engineering	4 Years	180 Seats
Computer Science and Engineering (Data Sciences)	4 Years	180 Seats
Computer Science and Engineering and Business Systems	4 Years	60 Seats
CSE(Artificial Intelligence and Machine Learning)	4 Years	60 Seats
CSE (Cyber Security)	4 Years	60 Seats
Civil Engineering	4 Years	120 Seats
Mechanical Engineering	4 Years	120 Seats
Electrical and Electronics Engineering	4 Years	120 Seats

Postgraduate Courses		
Courses	Duration	Intake
ECE - Embedded Systems	2 Years	18 Seats
Civil - Structural Engineering	2 Years	18 Seats
EEE - Power Electronics	2 Years	18 Seats
MEC - Machine Design	2 Years	18 Seats
CSE - Computer Science	2 Years	18 Seats
MBA	2 Years	60 Seats
MCA	2 Years	60 Seats

Ph.D. Courses	
Electrical and Electronics Engineering	Mathematics
Mechanical Engineering	Physics
Electronics and Communication Engineering	Master of Business Administration
Computer Science Engineering
